SUPPLEMENT TO
REPORT NO.                25X1

THIS IS UNEVALUATED INFORMATION

25X1

1. The civil airfield of NIZHNI-TAGIL (59°58' E/57°55' N),Swer-
   dlovsk Oblast, was located northeast of the town and the rail-
   road car factory. It had two or three large hangars (steel
   and corrugated sheet metal structures). There was little
   flying at the field. A twin-engine Douglas commercial air-
   craft was observed there every day.

2. There was a military airfield east of the town, at the end of
   the streetcar line, east of the railroad car factory. The
   field had a small hangar and a weather station was located on
   a small hill on the eastern edge of the field. Individual
   parachute jumps from four or five biplanes were observed.

25X1

Comment:

According to the report, there are two airfields near NIZHNI-
TAGIL. There was little flying there during the reported
period. From the description of the military airfield only a
small pilot school for primary training is assumed to be
located there.
